TALE IS CHEAP -And so are fine clothing, boots, shoes, and gentlemeu's and boys' fine farm-hing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do noth ing of the kind. I do not boast when I say that I dely competition in prices in anything in my line Be sides this I have only one price. I have no preferred ansiomers. Every body is treated alike at my establish ment. My stock is the largest and most complete ever offered in any part of this State Everything I have is new. No old, musty and outof date goods can be found on my shelves I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below these now provailing in New York and Chicago, drum into the ear of the customer that they sell at cost and even below must know that they lie. No store keeper sells goods for the fun of the I sell, as every honest merchant does, and den't print foolish felseloods in the vain hope of deceiving the public. I hope the public will no longer allow themselves to be mislead, but will call attemy store with the work other jewelers cannot do. and be convinced.

S. N. DAVIDSON. *,

To THE PUBLIC -I challenge any one to prove that I have ever failed to give satisfaction My work speaks for itself and my reputation is too well established to be injured by any alurs gratuitously spread by a busi ness rival. I have said and still maintain that S N. Davidson is no watchmaker. I do get my flue je welly work done in San Francisco, but never yet have failed to give sat isfaction both in price and workman ship and the work is better than can be done in Rono. I can prove that on more than one occasion I have had jobs brought to my store to be remade that have been botched by S. N Davidson. I. FREDRICKS.

LET THE PUBLIC JUDGE -I have naturally objected to Mr I. Fred zick's unplessent practice of misrepresenting the capacity of my estab Let the people come and judge of ment in the jewelry and watchmakmy prices and examine my stock be lieg line. In return Mr. F. m kes fore going into those humbingging, an exhibition of anger and forgetful Cheap John shops, in which they ness which ought to be noticed by vour readers as a natural curiosity. Mr F challenges me to prove that cost. Anybody with common sense he has ever failed to give estisfaction I do not desire to prove it I know better, indeed, since Mr. F has had a make a profit on everything all his intricate watch work done in my store since January 18th, 1878 The old gendeman has forgotten where his work was done. I belp his memory, therefore, by citing these charges ande ag anst I Fredrick on my watchmaker's books for watchwork, all of which he duly paid White House, No. 19, Commercial From January, 1878, to January. 1879, \$215-25. The books to that effect are open for inspection for any one withing to see them. When my friend Mr F says that I never did work for him he does not mean that the work was not done in my shop, merely that I did not personally per form it. As testified by my work for 4 bits. All other patent medi and hard earned certificate, I am a cines and toilet preparations cheaper | leweler and always keep a first class than can be bought elsewhere. Pre watchmaker employed Mr Fred rick is neither and gets violent as greativ reduced rates at Oaburn & though I were to blame Mr F is Shoemaker's drug store anxious to call me a har. A FEW FACTS which I submit to the public for decision For the purpose of withdrawing pairoungs from may store Mr Davidson recently commenced a m an attack on me in the columns of the local papers which I i dignantly resented. When two persons flatty contradict each other the one or the other must lie. Let us see was did so in this instance:

Mr Dividson wishes the public to believe that I have sont "all my in tr c. e watch work" to him pers and y. This is a gross in srepresentation of BONE's select B. imore oys ers the facts, as I will show. I have em his watchwork, to do my work oc casionally-on-e when buying goods in San Francisco, on another occa-FIOD when sick, and sometimes when overcrowded with work-but this was at times when the gentleman was working for Mr. Davidson on our mission only, and therefor not strictly Go to G W. San Francisco has tried an important experiment in the way of jury trials Instead of trying to find the most ignorant and stupid to serve at Trial Jurors, she selected of her best and brightest citizens and of them made their juries. As a conse quence more business was done at that term of court, the results were much more in accord with justice. and take it all in all the experiment was a successful one. It hardly stands to reason that a man who does not read the papers or who may be entirely innocent of the ability to read at all, and who has all the pre judice incident to ignorance, can judge fairly upon an intricate case Far better to have a thinking, reasoning jury who can weigh for them selves the evidence. The experiment tried in San Francisco ought to be generally adopted, and the evil now complained of would soon disappear

OUR WASHINGTON LETTER.

WASHINGTON, Feb. 6, 1879. THE JOINT VICTORY

Over Senator Conkling in the confirmation of General Merritt, was achieved by a vote of 33 to 24. Among the syes were 13 Republicans its boasted reforms in its stupid raids and 20 Democrats. Of the pays 18 on the army. But the proposition to were Republicans, 5 Democrats and reduce is dead for this session. 1 "Independent." Mr. Burt's ma jority as Naval Officer was 13. Senator McWilliam's course in voting to reject the nominations as a member of the Committee of Commerce and then voting to confirm, is severely charged with stultification is only view of the uniform tendency of huthe interests of number one, the crit icisms on the course of the victors in taking every advantage of their position to avoid a Waterloo defeat, seems evident. Who can recall an instance in this out throat game of politics in which the reverse policy has been observed? If only those without sin in this respect cast stones the bombardment cannot be serious. On the other hand, and incinuating nothing against Merritt or Burte, congratulations over their confirmation as a great victory for

A PERSONAL TRIUMPH In such a contest as this had come to be, won by ares only practicable with the adroit politician, strikes the average observer as rather narrow grounds upon which to base a promotion from the head of the Treasury to four years in the White House. And lastly if the outcome of this aquabble teaches a much needed les son to the effect that subordinate Federal positions were not designed as mere appendages of the Senatorial office it will not be regarded as an unmixed evil in many quarters where confirmation was opposed.
